# PROTECTING NEW ZEALAND'S BUILDINGS SINCE 2005

## GIVING YOU PEACE OF MIND

Automatic Fire Alarm Monitoring (AFAM) has grown to become New Zealand's second largest fire monitoring provider since our founding in 2005. With nationwide coverage and official Fire and Emergency NZ (FENZ) accreditation, we connect buildings directly to emergency services so that in the event the unthinkable happens, help is on the way immediately when every second counts.

Fire and Emergency NZ  
(FENZ) Accredited

## WHY CHOOSE AFAM?

### Robust, Secure, and Reliable

- FENZ accredited for direct emergency connections
- AFAM can protect all buildings from the very largest to the smallest
- Processes and equipment honed and proven over 20 years of operation
- Independently audited and accredited

### Smart Monitoring Technology

- Fully automated alarm processing without human delay
- Custom notifications via email, text, and automated apps
- Mobile-responsive web portal for service agents
- Monitor additional equipment beyond fire alarms

### Customer-First Approach

- Dedicated Fire Monitoring Advisers to guide you through the process
- Tailored solutions for building owners and service providers
- Continuous service improvements based on customer feedback

## WHAT SETS US APART

AFAM was founded by fire industry experts who recognized the need for specialized, independent monitoring services. We focus solely on what we do best, reliable fire alarm monitoring and continuously invest in technology to stay at the forefront of the industry.
