# FIRE ALARM MONITORING SOLUTIONS

Complete Protection For Your Building

## **Fire Alarm Monitoring**

Real-time monitoring of your building's fire alarm system with automatic notifications to you, your service agent, and FENZ when events occur.

## **FENZ Direct Connection**

We connect your fire alarm system directly to emergency services, meeting building WOF requirements and ensuring immediate response during emergencies.

## **Service Agent Notifications**

Automatic notifications to your fire alarm service agents about faults, fires, and maintenance events as they happen keeping your system fully operational.

## **Enhanced Information**

Rich technical data about your fire alarm system allows for better maintenance, reduced downtime, and lower long-term costs.

## WHY YOU NEED US

Many commercial buildings in New Zealand require direct connection to Fire and Emergency New Zealand (FENZ) for building warrant of fitness compliance. AFAM provides the technology and nationwide monitoring network that makes this connection seamless and reliable.

# THE AFAM ADVANTAGE

## FLEXIBLE BUSINESS TERMS

- **Competitive pricing**, backed up with quality service and exceptional technology
- **Versatile invoicing** with direct or on-behalf billing to suit your preferences

## BEYOND BASIC MONITORING

- **Customer portal and mobile website** for system management
- **Automated reporting and notifications** via email and SMS
- **Monitor additional equipment** like pumps, fans, and freezers through the same system
- **Mobile App** for total visibility 24x7

## STREAMLINED INSTALLATION

- **Hassle Free Connection**, we'll arrange and coordinate everything for you
- **24-hour equipment shipping** after order placement
- **Compact equipment design** that fits inside many fire panels

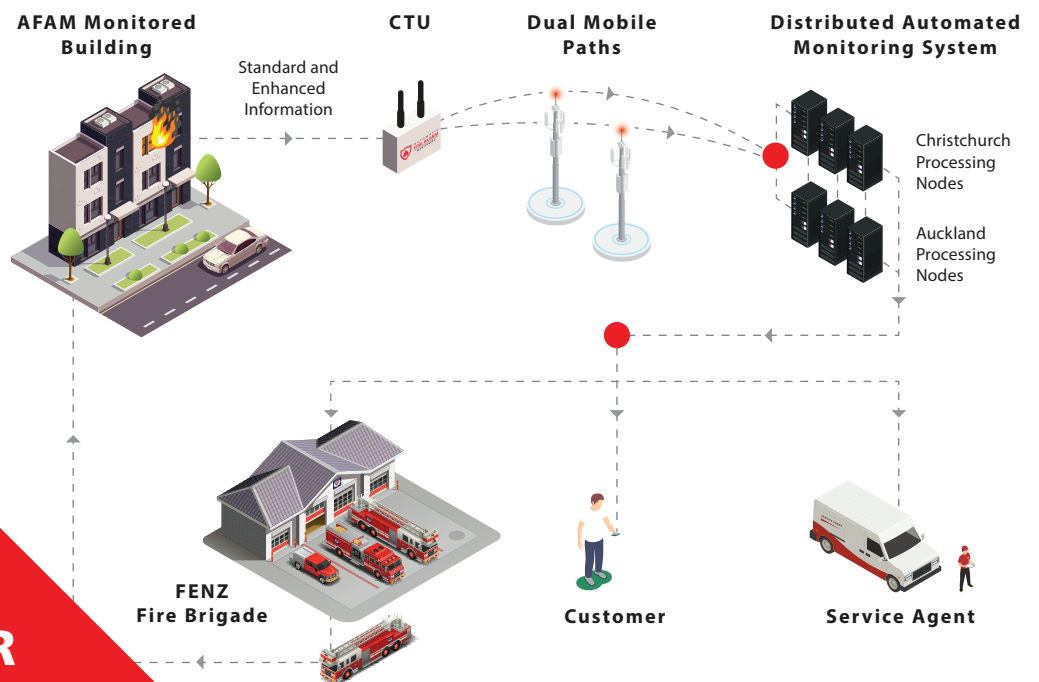

## ADVANCED MONITORING TECHNOLOGY

- **Fully automated system** that eliminates human delay in emergency response
- **Dual mobile network paths** for redundant communications
- **Distributed processing nodes** available in both Christchurch and Auckland
- **Constantly innovating** and adding new services unlike our competitors

## CONNECTED FOR PEACE OF MIND

Our advanced monitoring equipment maintains constant connection with your fire alarm system. When an event occurs, our network automatically routes alerts to the appropriate responders, FENZ for emergencies and service agents for maintenance requirements, all without human intervention.
